TO WHOM IT MAY CONCERN

This reference is to confirm that my husband and I have employed Mr. Hermann Witthoeft as a builder on many occasions over the past 11 years.

He has constructed a wide range of projects for me at two separate residences including a superb winding staircase, several pergolas and decks, a bay window, cupboards, bookcases, and shelving throughout two houses including my current kitchen which he totally revamped into a new stylish identity.

In addition he has carried out a large number of repairs and maintenance programmes. Over the time I have employed Mr. Witthoeft I have found the standard of his workmanship without equal irrespective of the skills required for each project and everything he has ever built has been of a consistently superior standard. His major projects for me have been spontaneously admired by those who have seen them.

He is also scrupulously honest, polite and extremely reliable. It would be impossible to recommend him too highly. His attention to detail gives all his work an air of quality obvious to all and he carries out all work personally.

Yours faithfully

A handwritten signature in black ink, appearing to read 'S. Ward', with a long horizontal flourish extending to the left.
