

To Whom It May Concern:

**Re: Hermann Wilthoff, Builder**

Herman Wilthoff has completed a number of building projects designed by Altis architects in 1995 and 1996. These were residential buildings including three new townhouses (1 John Street, Leichhardt – value \$290,000) and a domestic renovation in Willoughby (value \$101,000).

We have no hesitation in recommending Herman as a high-quality builder for the following reasons:

- Very professional approach from start to finish
- Attention to detail and quality of workmanship is very good
- Maintained a good relationship between all key consultants – ourselves, engineers and council
- Good understanding of contractual obligations
- Final projects completed on time and within the budgets allocated

We would welcome the opportunity to work with Herman in the future and would recommend him to fellow colleagues.

Yours faithfully
